With assets under management of €7,7 billion [figures 31.12.2025] and a multi-year presence in collective and personal portfolio management, Piraeus Asset Management MFMC is one of the top asset management companies in Greece. It is a reliable partner in professional management as it offers customized, high-end investment solutions to private and institutional investors.

Piraeus Asset Management MFMC, a member of the Piraeus Bank Group, has one of the most experienced investment teams at its disposal, with a prestigious academic background in Greece and abroad and a number of distinctions. It is prepared to undertake any portfolio management assignment.

The company consistently strengthens its financial and business figures, having recorded the largest increase in net sales and assets in the Greek mutual fund market in recent years, both in absolute numbers and as a percentage. At the same time, it has further expanded its position on the demanding institutional investor market.

Piraeus Asset Management MFMC offers cutting-edge products and services for all types of investors:

- Mutual Funds & Optimum portfolios for individual investors,
- DPM & Tailor-made portfolios for individual wealth management,
- Private Label mutual funds for specific customer groups,
- Customized management through portfolios or mutual funds for institutional investors with increased and special investment specifications.

**We offer innovative products and services
to meet every investment need in professional
management.**

Signatory of: _____

The company supports in practice the necessity for a holistic approach to occupational fund management and for a number of years participates and has held Conferences on this topic, attended by competent bodies and sector professionals, as it also has an active role to play in the discussion taking place in Greek society and in the development of the institutional framework.

Piraeus Asset Management MFMC is active, grows and evolves along the key axes of:

- Implementing effective portfolio management
- Seeking the optimum return on investment while aiming to limit risk
- Providing quality service with flexible procedures and on-point services
- Incorporating and applying responsible investment principles (ESG)

As part of the Piraeus Bank Group's broader policy, Piraeus Asset Management MFMC demonstrates in practice its strategic choice to support modern initiatives in relation to sustainable development and promoting responsible investment policy, having participated since 2019 in the global Principles for Responsible Investments (PRI) initiative. It has also incorporated into its portfolio strategy the principles of responsible investment, which are aligned with the interests of the environment and society.

The aim of the company for 2026 is to remain a strong point of reference on the market, both by achieving returns for its customers and because of the high level of expertise and professionalism of its officers and infrastructure, and to be the top choice amongst investors seeking asset management services by offering products and services with high added value.

Piraeus Asset Management MFMC is supervised by the Hellenic Capital Market Commission (operating license in Greece under decision No. 6/378/14-4-2006 of the Hellenic Capital Market Commission).
